POSTPONEMENT OF THE 65th WORLD CONGRESS BY 2021

Dear IPA friends:

From the Board of the Section of IPA Spain we convey the best wishes of health to our partners and their families. The pandemic that we suffer has caused numerous sick and deceased, some of them colleagues and members of our association, our solidarity with all of them.

Due to the effects of COVID-19, numerous events scheduled by the IPA, both national and international, have had to be canceled and / or postponed.

On the part of the IEB, it was officially agreed last Wednesday, May 6, to cancel the World Congress and Friendship Week 2020, scheduled for October, a decision shared by the Board of the IPA Spain Section since the evolution of the pandemic It is unpredictable, and it progresses and manifests itself differently in each country, with isolation measures and effects on mobility that do not allow planning trips with full guarantees.

On behalf of the IEB, the organization of WC2021 has once again been granted to the Spanish Section. As you know, a lot of work had been done to organize the World Congress, for which a very attractive program was developed and we can tell you the following:

- It will be held at the hotel complex hired in 2020. Evenia Hotel in Lloret de Mar (Girona)
- The planned dates will be between the 5th and 10th of October, 2021
- Work is being done to maintain the entire planned program and adapt it to the dates of 2021.
- Friendship Week will start after the WC2021 and will maintain the schedule planned for 2020.

You will receive more information shortly. Meanwhile, we send you a message of optimism: we are convinced that this pandemic will soon be overcome and that it will only be a bad dream.

We wait for you all in 2021 !!

Our best wishes for health.
